

Our organisation has
endorsed the campaign

STOP ECOCIDE

Change the Law. Protect the Earth

We believe ECOCIDE - mass damage and destruction of ecosystems - should be recognised as an atrocity crime at the International Criminal Court.

We actively encourage our members/employees/clients sign up individually as Earth Protectors to help fund the legal and practical support required, while creating visibility and momentum for this crucial amendment to international law.

We publicly pledged our support on:

Date: 15th June 2020

Organisation: Wokingham S.A.C.R.E.
