

ISE

Year 6 Raising Attainment Conference

For 6 teachers, KS2 phase leaders, English and Maths subject leaders, RA lead

With a few teaching weeks remaining before our Y6 pupils demonstrate their learning in their SATs, we want to ensure every single one of them the best preparation and opportunity to be successful, knowing what a significant milestone this is in readiness for progressing to Secondary and achieving good outcomes at the end of Y11.

The conference will feature a selection of contributions from specialists from across our region's schools, trusts, and academies with a focus on English (specifically writing), Maths, SATs prep and Raising Attainment strategies.

You will experience 4 input sessions of your own choice and be able to collaborate in professional networking and best practice sharing through a padlet both during and after the conference.
